

CapsuleCaddy™ Container

Big Solutions in Small Packages

The perfect quantity for small clinical trials and R&D projects

Capsugel's innovative CapsuleCaddy™ Container is the perfect size container for clinical trial batches, R&D projects, or small manufacturing runs – any environment where space is at a premium and a resealable lid is an invaluable convenience. Filled with capsules in the most popular sizes and colors, the CapsuleCaddy™ Container is made from 100% recyclable, high-density polyethylene to protect capsules from the degradations of light and moisture. Each lot and contents are clearly identified on the top and side.

Filled with Coni-Snap®, Coni-Snap® Sprinkle, Licaps®, DBcaps®, DRcaps™, Plantcaps™ Vcaps® or Vcaps® Plus Capsules

- **Coni-Snap® Capsules** – the world's most popular two-piece gelatin capsule that works on virtually every filling machine
- **Coni-Snap® Sprinkle Capsules** – far easier to open capsules designed for patients with swallowability issues
- **Licaps® Capsules** – specially designed for the containment of liquids or semi-solids using CFS 1200 or CFS 1500 C filling machines
- **DBcaps® Capsules** – developed specifically for double-blind clinical trials
- **Vcaps® Capsules** – vegetarian capsules with a natural, textured surface appearance
- **Vcaps® Plus Capsules** – vegetarian capsules with a high-gloss appearance and gelatin-like filling performance produced without the use of gelling agents - DPI-grade available
- **DRcaps™ Capsules** – acid resistant vegetarian capsules
- **Plantcaps™ Capsules** – vegetarian capsules made from pullulan for oxygen sensitive ingredients and immediate release.

THE CAPSULECADDY™ CONTAINER OFFERS THE FOLLOWING BENEFITS TO OPTIMIZE YOUR ACTIVITY

- **Hermetically sealed container provides protection from light and moisture**
- **Sealed lid is easy to open and close**
- **Caddy labeled with Certificate of Analysis**
- **Easy to store, stackable container**
- **Caddy holds optimum quantity of capsules**
- **Plastic bag protects capsules from contamination**
- **Caddy is identified with capsule description**
- **High-density polyethylene is 100% recyclable**
